ABOUT

Punkz is a community-driven NFT Collection bringing Metaverse integration. $PUNKZ Token powers the entire Punkz Metaverse Ecosystem.

Phase 1

PUNKZ GEN 1

- 5,000 generative male full-body 3D characters.
- Every Generation 1 Punkz holds the ability to mine 15 $PUNKZ per day.
- The only way a PunkzNFT can mine $PUNKZ is via staking.

METAVERSE INTEGRATION

- Punkzville serves as the main Metaverse Ecosystem for all Punkz holders. While continuing development of our ecosystem we will look to integrate our strategic Metaverse partners such as: Celtic Labs, Drunken Ape Social Club, Crafts Production Group, Astatine Group, and more.
- All holders will receive exclusive access to the entire Life on Fire franchise, limited edition skins, premium passes, special PFP's in-game, and other in-game exclusives.
- PunkzDAO and Punkz Foundation will actively look for new opportunities to integrate PunkzNFT & $PUNKZ token into major projects in the Solana.
- Garnering strategic partnerships allows for the growth of our Ecosystem and gives our holders the opportunity to use their Punkz to perform activities such as gallery & bar social gatherings, casino nights, etc.

SOCIAL IMPACT

- The Punkz Foundation and DAO Board will begin working with community leaders and local builders to start the design process on renovation and construction of 6 community parks globally in the next 12 months following: Ukraine, Brazil(2), India, Nigeria, & the United States.
- Punkz Parks will feature recreational activities such as basketball courts, baseball fields, soccer fields, skate parks, & more depending on the geographical location and popular activities within that area.
- Punks Parkz will feature community-friendly activities such as walkways, fountains, meditation areas, bike paths, community gardens, & more.
- Donation bookcases are filled monthly with books to promote education and reading. Benches and tables will be in all parks to promote safe places to learn and study.

DAO STRUCTURE

- PunkzDAO & the Punkz Foundation DAO board: The base layer where holders and the founders can build together.
- The PunkzDAO & the Punkz Foundation: The PunkzDAO serves to bring power to the community of Punkz holders. Punkz Improvement Proposal Processes would allow the DAO members to make decisions on the Ecosystem applications, projects, and partnerships.
- The Foundation facilitates decentralized and community-led governance and is designed to become more decentralized over time. The founding team is tasked with administering the decisions of the PunkzDAO and is responsible for day-to-day administration, bookkeeping, project management, and other tasks to ensure the DAO community's ideas have the supports they need to become a reality.
- The DAO's board will act as a council of the Punkz Foundation, and its members are tasked with oversight of the Foundation administrators. The board has the purpose of administering DAO proposals and serving the overal vision of the community.

Phase 2

PUNKZ GEN 2

- 5,000 generative female full-body 3D characters.
- Every Generation 2 Punkz holds the ability to mine 15 $punkz per day.
- The only way a PunkzNFT can mine $PUNKZ is via staking.

BURNING MECHANICS

- Only one Punkz Generation 1 & 2 can be burned per day within the entire collection.
- Punkz Generation 1 & 2 can be burned by the holder to claim $PUNKZ held by the PunkzDAO Treasury.
- If the PunkzDAO Treasury does not hold enough $PUNKZ, then the burn is queued.
- Punkz Generation 1 & 2 that are put in the burn queue, cannot be taken back out and will be in the queue until it has reached their turn to be burnt. Its queue will be organized by input, such that the order the Punkz is received will be burnt first.
- This is the formula used to calculate the amount of $PUNKZ a holder can claim via a burn. $PUNKZ Quantity = 2000 - (# of Remaining Punkz - Rarity Ranking)

METAVERSE INTEGRATION

- Interactive P2E action-adventure metaverse game that is played from either a third-person or first-person perspective. Players may freely roam the open world(Punkzville) or complete missions with set objectives. Outside of the missions, players have the ability to compete against one another in competitive-based games such as basketball tournaments, skate competitions, and more. The funds for these activities will derive from PunkzDAO.
- All Punkz Parks once built or reconstructed will be integrated into the Punkzville Universe. Holders will have the opportunity to participate in P2E activities in Punkz Parks. Holders have the option to donate all earnings from activities in Punkz Park to the Punkz Park ecosystem fund.

SOCIAL IMPACT

- The Punkz Foundation and DAO Board will begin working on the renovation and construction of 3 additional community parks in Ukraine, Brazil, & India.
- Every Punkz Park will host two youth sporting event tournaments per year. Punkz Dao Board and the Punkz Foundation will continue to work with local governments and community leaders to oversee park operations and ensure they are being both well maintained and properly utilized.

Phase 3

MASTER PUNKZ

- 2,500 hand-designed full-body 3D characters.
- Every Master Punkz has the ability to mine 50 $PUNKZ per day.
- The only way a Master Punkz can mine $PUNKZ is via staking.
- Master Punkz do not have the ability to be burned.

BRANDING & STORE

- Launch of our Metaverse & Retail clothing brand.
- Streetwear designed merchandise including t-shirts, hoodies, shoes, skateboards, and more. Holders will have the opportunity to purchase any and all pieces of merchandise prior to public sale. We look to collaborate with some of the largest streetwear brands in the industry.
- Merchandise will feature Punkz from Generation 1 & 2 and Master Punkz. Holders of the NFTs used in the merchandise will receive branding revenue.
- All Punkz holders will receive 15% off all merchandise in store & can use $PUNKZ tokens for payments of merchandise.

COMING SOON...

PUNKZ tokenomics

tokenomics

PUNKZ is an SPL token on the Solana Blockchain. It was created with a starting supply of zero.

- The maximum supply is 69,420,000 $PUNKZ.
- There will be 4 halving periods. Each halving will reduce $PUNKZ staking rewards by 50%.

11,000,000 $PUNKZ	tokens mined.
14,200,000 $PUNKZ	tokens mined.
20,000,000 $PUNKZ	tokens mined.
24,220,000 $PUNKZ	tokens mined.
